Washington, August 5.—One of the recent incidents in the President's experience with political applicants seems thus far to have escaped observation and report. When hoped to escape, but he came again with it, and with others I signed it, thinking there was no chance for its reaching even rominent men, who hated to refuse, and loped and thought it would result in othing. Yours very respectfully, --WASHINGTON, August, 1885.

DEAR SIR-I have read your letter with amazement and indignation. There is but one mitigation to the perfidy which your letter discloses, and that is which your letter discloses, and that is found in the fact that you confess your share in it. I don't know whether you are a Democrat or not, but if you are the crime which you confess is the more unpardonable. The idea that this administration, pledged to give the people better government and better officers, and engaged in a hand-to-hand fight with the bad elements of both parties, should be betrayed by those who ought to be worthy of implicit trust is atrocious, and such treason to the people and should be betrayed by those who ought to be worthy of implicit trust is atrocious, and such treason to the people and to the party ought to be punished by imprisonment. Your confession comes too late to be of immediate use to the public service, and I can only say that, while this is not the first time I have been deceived and misled by lying and treacherous representations, you are the first one that has so frankly owned his grievous fault. If any comfort is to be extracted from this assurance you are welcome to it. Yours truly, welcome to it. Yours truly,
